

INCT-FNA Symposium- Institute of Physics

7 - 10 November - Niterói- RJ- Brazil

The main goal of the INCT-FNA Symposium is to promote scientific collaboration between Brazilian physicists and foreign researchers from important scientific institutions. The meeting will gather experts from theory and experiment to discuss relevant topics of nuclear physics and applications. The meeting includes plenary sessions, oral contributions and posters, with participants from the national and international nuclear physics, particle physics and application communities, including students, postdocs and academics.
